Object: Jobs with Ibig® Special Cleaning System

Capomasi srl has relied upon Ibig® Special Cleaning System since 2002 for its versatility, which allows to clean any surface, even the most delicate, and to bring it back to its original appearance without jeopardising its material and historical integrity.

Here are some of the sites where we worked:

- **Galliera Veneta (Padua) City Hall (1860)**
 - **Material:** 500 square meters of stone of the hills of Vicenza
 - **Job:** cleaning and treatment of window sills, cornices, balustrades and columns.

- **S. Stefano Palace (Provincial Governor's Offices) (1900)**
 - **Material:** 1500 square meters mq of stone of the hills of Vicenza.
 - **Job:** cleaning and treatment of external facades.

- **San Giorgio Church's bell tower (Venice) (about 1500)**
 - **Material:** 800 square meters of iron beams.
 - **Job:** paint removal to SA2,5 and painting of the belfry bearing beams.

- **Beltramini Palace in Asolo (Treviso) (1930)**
 - **Material:** 1000 square meters of wooden ceilings and 500 square meters of stone elements.
 - **Job:** cleaning and anti-graffiti treatment of facade, cleaning of wooden ceilings and removal of surface coating.

- **Tour Eiffel in Paris (1889)**
 - **Material:** 1200 square meters of Soupe stone.
 - **Job:** cleaning of stone base base.

- **Padua City Hall (1960)**
 - **Material:** about 350 curbstones in Prato della Valle (350 circa).
 - **Job:** cleaning and anti-smog treatment.

- **Padua Cathedral (about 1550)**
 - **Material:** 350 square meters of bricks and marble.
 - **Job:** removal of graffiti and protection treatment of main facade.

- **Asolo Golf Club (Treviso) (1990)**
 - **Material:** 960 square meters of wooden structures.
 - **Job:** paint removal from wood and complete protection cycle.

- **Palaverde Sports Arena (Treviso) (1980)**
 - **Material:** 1000 square meters of outside concrete.
 - **Job:** cleaning and consolidating treatment of reinforced concrete south facade.

- **Casarola Shipyard (Verona)**
 - **Material:** 150 square meters of keels.
 - **Job:** antifouling removal without damaging the gel coat.

- **Padua Municipality** – graffiti removal team since 2003.
- **Cortina d'Ampezzo Municipality** – cleaning of stone benches.
- **St Anthony of Padua Cathedral – Padua - (about 1230)**- cleaning of columns, stone staircases and statues.
- **St Giustina's Cathedral- Padua (about 1500)** – graffiti removal and cleaning of cloistered courts.
- **St Luke's church – Marostica (Vicenza)** – cleaning of statues and tabernacle of 1600.
- **Cervarese S. Croce (Padua) Municipality** – cleaning of monuments of 1950.

Each cleaning phase is preceded and followed by the treatments which best suit the aim of conservation and reconditioning of materials.

For privacy reasons, we cannot mention private clients.

Yours faithfully,
Nicola Capomasi
